roller shutter system
ensures quick and easy
access to the cabinet and
reduces noise from hardware
by blocking the pathway

LINAK
WE IMPROVE YOUR LIFE

LINAK DL12 LIFTING COLUMNS
Thrust: up to 700 N per lifting column
Colours: Grey/Black/White
Speed: up to 38 mm/s
Minimum work surface height: 633mm
Maximum work surface height: 1293mm

Console Concepts uses Linak control boxes which feature ZERO technology to lower standby power consumption to just 0.1W.

All consoles feature Linak's PIEZO anti-collision technology with sensors completely integrated in the lifting columns to prevent material damage to a desk if collision with a solid object occurs.
